MODUL DUM (a part of Methodological portal RVP.CZ)

DUM (Digitální Učební Materiály; **Learning Objects**) – Czech version of Open Educational Resources (OER)

- Made by teachers for teachers (**not made by professionals!**)
- Electronic form
- Ready at hand
- Mainly worksheets and presentations

Main objective: activate students!

MODUL DUM

Evaluation

- DUM pass through **expert reviews** of experienced and independent reviewers + proofreading
- rating scale goes from one (very weak) to five stars (outstanding)
- content accuracy, didactic suitability, originality, quality of workmanship and graphic design, accuracy of the citations...

MODUL DUM

- Most materials in Czech, for Czech pupils and students
- **Categorized by levels of education and then by curricular documents**

MODUL DUM

Technical Specifications

- System managed internally and wasn't outsourced
- Created in the open-source project Zend Framework
- All the DUM published under the Creative Commons licence and published in a common format (Microsoft) and open format (OO.o)
- Number of visitors to the module DUM reaches 35,073 unique visitors per week (in the 2nd half of 2013)

Thank you for your attention!
